Contact the NECCC Photo Conference team, or find links to FAQ's, COVID-19 updates etc.

Sessions and Activities for Every Skill Level – For example

Beginner & Refresher

Hands-on Workshop
Multiple mini-sessions with instruction and hands-on practice. Everyone will go away with an understanding of how to create better photos.

A new learning style
Often, "basics" workshops focus on the camera buttons and not the goal of capturing better photos. Instead, this workshop focuses on capturing better photos in everyday situations.

Camera skills
Along the way, you will learn a lot about your camera settings and how to better leverage camera capabilities to create better results.

Situations and photo styles we will practice in this workshop lead by Chane Cullens

Landscape Photos - Focusing
Choosing what should be in focus and how much should be in focus

- Focus point selection – where is the sharpest spot?
- Focus range (aperture) – how much should be in focus?
- Avoid camera shake – holding your camera steady
- Directing your viewers – using composition techniques

Action Photos - Motion
Deciding to freeze or blur the action

- Capturing motion (shutter speed) – putting you in control of the box
- Focus tracking – letting your camera change focus as the subject moves
- Leaving room ahead of the motion – using composition techniques
- Drive mode – high-speed continuous shooting

Family Photos - Lighting
Where lighting is often poor and eliminating distractions in your photo is key for moving the result from OK to great

- Lighting options – metering mode, exposure compensation, altering light sources

Intermediate

Get Creative with Photographic Textures

Jump headfirst into the world of texture overlays to enhance your photos. Learn how best incorporate textures into your creative journey.

Advanced

Post-Processing Night Images

Intermediate to advanced shooters, features live demonstrations of the latest techniques for processing night images in Lightroom and Photoshop, Starry Landscape Stacker/ Sequator and StarStax

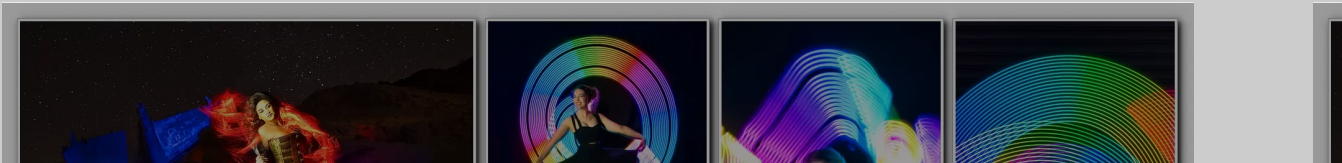

Camera and Photo Basics

Do you want to take better photos? Now is the time to move beyond your camera's "auto" setting and create photos that look the way you want them to! Multiple mini-sessions with instruction and hands-on practice.

Plus 200 other possibilities!
