## About Greg Benz

**Greg Benz (MN)** is a professional landscape and cityscape photographer, Photoshop instructor, and software developer. He is widely known as the developer of the “Lumenzia” luminosity masking panel for Photoshop.

As an instructor, he strives to help other photographers create beautiful art by sharing the vision, tools, and technique behind his own work. His training courses focus on how to utilize luminosity selections to dodge & burn or blend exposures with more natural results.

Greg is based out of Minneapolis, Minnesota. He got hooked on photography back in 2000 while living in London for six months and has been obsessed ever since. He has since traveled to roughly 70 countries in search of beauty, new perspectives, and adventure.
