When	Friday 12:30 pm – 1:30 pm – Marcus Saturday 11:30 am – 12:30 pm – Campus Center 163 Map < https://necccphotoconference.org/maps/>
Skill	All levels

The night is rich with color, much richer than what our eyes perceive. We have poor night vision, but our cameras can see very well in the dark. Modern digital cameras are capable of capturing the intense pallet of the city at night & delicate hues of the Milky Way. We are privy to beautiful sunrises & sunsets in New England; however, we don't need to shelve our cameras after the colors of the sunset disappear. That's when the magic begins. We have some of the best dark skies in the eastern US right here in New England. Let your camera expand your night vision and be prepared to be amazed.
