When Scott did this class for the first time, right after the class you know what so many participants came up to Scott to ask "Why didn't anybody tell us this stuff?!" These are the things that, once you realize them, can propel your image-making to the next level because it opens your eyes to things that are usually passed one-on-one (maybe from a mentor to an apprentice), or not at all, but Scott lays it all out there, and really opens your eyes to a new way of thinking about photography that will transfer directly to the type of images you make from here on out. This will be one you'll be talking about!
