This report will be posted on the NECCC web site. All winning and HM images, if not already posted, will soon appear on the NECCC web site as well. Please share that information with your club members, particularly those who ask what types of photographs win. These galleries provide your members, particularly the newer members, with great examples of good photography from which they can learn.

**Problems**

There were a number of problems noted during the Fall entry/competition.

1. One entry in Nature Class B received a score of 12, which designates the image as being “out of category” for a Nature image.
2. One entry had exactly the same title as a previous entry for the same person. Looking at the two images showed that they were in fact different. The second entry title had a #2 appended to its title.

Reps, please ask your members to use different titles for different entries to avoid this problem in the future.

3. One entry had a different, but similar title as a past entry. Looking at the two images showed that they were identical. The new image was disqualified. Renaming an image so that it can be entered a second time is not allowed. Please discuss with your members the ethics of renaming images that have already been used.
4. Two entries for the same person were entered from two different clubs. One was disqualified in each case.

We make these checks in attempt to keep the playing field level for all clubs. We hate to disqualify images for violations of the rules; it is one of the parts of our jobs as competition directors that we dislike most. Please be careful in the future so that we don't have to disqualify entries.
