This report will be posted on the NECCC web site. All winning and HM images, if not already posted, will soon appear on the NECCC web site as well. Please share that information with your club members, particularly those who ask what types of photographs win. These galleries provide your members, particularly the newer members, with great examples of good photography from which they can learn.

## **Problems**

There were a number of problems noted during the Winter entry/competition.

1. One club sent two entries by the same person in a single section. One of those entries was disqualified. Please be careful to send only one entry per person per section.
2. We had two entries that were nearly identical to previous entries. In one case it looked as if the image had been reprocessed. We allowed those entries to be entered, but want to caution reps to remind their members that the same entry may not be entered more than once.

We make these checks in attempt to keep the playing field level for all clubs. We hate to disqualify images for violations of the rules; it is one of the parts of our jobs as competition directors that we dislike most. Please be careful in the future so that we don't have to disqualify entries.

## **Next Competition (2018-2019)**

**Spring Competition:** The third NECCC Electronic Photograph Interclub Competition of the 2018-2019 season will be held on Tuesday, April 9, 2019, hosted by The Seacoast Camera Club. The location will be Urban Forestry Center, 45 Elwyn Road (27 Elwyn Rd for GPS), Portsmouth, NH 03801 The meeting will begin at 6:00 p.m. **The closing date for receipt of entries is Monday, March 18, 2019.**

## **Next season**

Just a reminder that for the 2019-2020 season that begins next Fall, we are changing the size requirements from 1024x768 to 1400x1050. If your club is still accepting 1024x768 images in your competitions, you might want to think about revising your rules so that you can use competition images for the interclub competition. You can, of course, still submit 1024x768 images, but they may appear small on the screen or of a lower resolution putting your club at a disadvantage.
