

NEW ENGLAND CAMERA CLUB COUNCIL, INCORPORATED

NECCC Winter 2023 Projected Image Interclub Competition

The Winter 2023 competition, hosted by Greater Lynn Photographic Association, was judged in person, on February 27, at the club's location in Lynn, MA. The competition was run by Rick Cloran using the Digital Judging System judging program written by Richard Cox. Pam Lintner assisted by maintaining the manual score sheets for comparison and verification. There were approximately 60 in attendance.

Thirty nine clubs participated in the Pictorial section (26 from Class A and 13 from Class B) and thirty eight clubs participated in the Nature section (20 from Class A and 18 from Class B). Thanks are extended to Greater Lynn Photographic Association for hosting this second competition of the season.

The judges for the competition were:

- Sandy Selesky of Nashoba Valley Photo Club
- Arthur Vaughan of Merrimack Valley Camera Club
- Shiv Verma of Greater Lynn Photographic Association

The winning clubs in the **Pictorial** section **Class A** were:

This report will be posted on the NECCC web site. All winning and HM images, if not already posted, will soon appear on the NECCC web site as well. Please share that information with your club members, particularly those who ask what types of photographs win. These galleries provide your members, particularly the newer members, with great examples of good photography from which they can learn.

Problems

We had the usual problems with receiving two images for one individual in a single category and receiving images that had been entered in previous competitions. A number of clubs that had to fix one or two images sent all the images a second time; we had to sort out and eliminate the duplicates. Please be

careful in keeping your records. Having to disqualify images for these violations is the least favorite thing we have to do.

Judges' Comments: (Submitted by Rick Cloran)

Based on comments in a recent Keeping Clubs Active session (Feb 2023) as to why the judges should be able to have and review images in the competition prior to the night of the judging, the image folders were sent to the judges via WeTransfer on the Friday prior to the judging. All of the judges concurred that this was beneficial as it gave them the opportunity to see the images on their monitors where they knew how colors, etc. show. All judges agreed that this made it possible for them to be comfortable in seeing the images without a partial run though on the night of the judging.

Projection was done using a Canon WUX6010 projector showing at 1080p and using a profile calibrated for the projector. To provide the judges with a sense of the projection test images showing full partitioned (10 steps) gray scale, full color target (Bill Atkins Lab Test page) color and continuous gray scale, and the NECCC reference image to allow them to see brightness range, contrast, color and that the full image would be projected were shown prior to the beginning of the judging.

At the end of the judging of all categories and classes, the competition directors went back through the top scoring images from each category and class and announced the score, maker and club using the print outs of the scoresheets that was used for the manual scoring.

Next Competition (2022-2023)

Spring Competition: The third NECCC Projected Image Interclub Competition of the 2022-2023 season hosted by the Flagpole Photographers Camera Club will be judged virtually. The results will be shown to the membership of the club on Tuesday, April 18, 2023, beginning at 7:30 p.m. **The closing date for receipt of entries is Thursday, March 24, 2023.**
