## Customized Programs for Clubs

John Slonina offers a variety of programs and presentations that can be customized to meet the needs of individual clubs and organizations. From a one hour inspirational program to a multi-day event, we will set it up for your needs and budget. Please contact us for more info.

## **On location workshops**

We can also lead workshops on location with emphasis on wildlife, landscape. Macro, night photography, post processing, photo critiques etc.

The most popular programs include:

### **A.) Fundamentals of Wildlife or Nature Photography:**

We can emphasize wildlife, birds (in flight), and macro or just do an overview of all of them.

John presents practical tips that can be immediately utilized to increase your chances of capturing that "shot of a lifetime". We will explore what makes a compelling and emotionally engaging photograph. He will present numerous photo techniques while entertaining participants and illustrating his points with humor and stories from his adventures. Whether you're a novice photographer or a serious shooter, you'll leave this presentation excited to try new strategies and tips for getting closer to wildlife and creating more dramatic, high-impact images. This lecture can be tailored for beginner or advanced photographers depending on the audience.

### **B.) Experiencing Nature: The Story Behind the Images**

This presentation features his photographs from New England to Alaska. John will share the stories behind the photos. He will provide tips to improve your own nature photography experiences and tackle some of the challenges and surprises.

### **C.) Wild America: My Favorite Places in the United States**

This presentation covers some of the best locations in the United States for seeing incredible landscapes and wildlife. This program can be customized to emphasize photo techniques, travel tips, northern lights, and or wildlife biology. The program covers several locations like New England, Yellowstone, Grand Tetons, Minnesota, Alaska, Florida, Everglades, Big Cypress, Washington State, Acadia, White Mountain National Forest, and the state of Maine.

### **D.) Lightroom in 1 Hour or Fundamentals of Lightroom:**

This presentation will be an overview of Adobe Lightroom This program can be adjusted to 90 min, 2 hours, or 4 hours depending on how much in depth you want to go. We can also emphasize any of the 7 modules like Library, Develop Modes etc.

### **E.) Northern Lights (Aurora) and Time Lapse Photography (Coming Fall 2015)**

Night photography is a lot of fun. It adds a whole new element to your portfolio. Learn how to expose them correctly. How to compose, shoot and focus in the dark. John will be using examples with the Northern Lights. We can also discuss how to make time lapse photography. What equipment and software do you need? The correct formula for night photography, intervalmeters, reducing flicker, post processing with lightroom.

### **F.) Bear Country: The Bears of North America**

Join professional nature photographer John Slonina as he travels across North America to photograph bears. Explore Grizzly Bears in Alaska, Polar Bears in Canada, and Black Bears across the US. He has many

adventures and photos to share. He also will discuss photo techniques for wildlife photography and location tips on how to plan your own bear adventure.
